NEW ADMINISTRATION BUILDING OF Y. W. C. A.

General Secretary Tells of What This Organization Is to Do for the Welfare of the Young Women of Richmond.

BY L. E. BROKAW,
General Secretary Y. W. C. A.

In view of the fact that the cornerstone of the Young Women's Christian Association administration building, at No. 6 North Fifth Street, will be laid within a few weeks, the board of directors thought that a brief description of the building might be of general interest.

Twenty years ago the name Young Women's Christian Association stood merely for a small boarding home—a home usually in a congested portion of the city, crowded, often inconvenient, and with rates that made it a charitable enterprise, and which not only decreased a girl's independence and self-respect, but inevitably tended to lower the living wage. It varied for the few underpaid, inefficient girls, and thus handicapped their more enterprising sisters, since employers refuse to raise wages when a low wage can be thus reinforced through charity.

Gradually, the real needs of the girl who works thrust themselves forward, and the association took steps to meet them.

The employer is told that \$2.50 per week is not a living wage, and he truthfully acknowledges it, but he replies that the girl is not worth any more.

Then the association finds out just what the girl lacks in efficiency, and sets itself to supply the need through proper training.

The girl is homesome, for the great crying need now and always has been for the "human touch." Think of living in a great city and knowing almost no one. What sort of a home is open to them? A meagerly furnished room. What sort of social life awaits them? Too often none at all, or worse than none.

The Young Women's Christian Association stands pre-eminently for preventive work. Better to destroy germs than to give medicine to the

Or, on the same floor, relaxation may be had by a plunge in the swimming pool, or if more strenuous exercise is desired, it may be obtained in happy class work in a gymnasium, where the exercises are fitted to each individual need.

On the first floor an entrance hall will bespeak a welcome and a general meeting ground. On one side of this hall there will be offices, where all may be able to obtain information or help either in the travelers' aid, the employment, or the general office. On the other side there will be a reading and lounging room, where one may rest, read, chat or meet friends.

On the second floor front there will be an assembly room, a room for an auditorium, but a room to be freely used for parties and meetings of all kinds and at all times.

On the third floor there will be a room where girls may learn to become more efficient housekeepers; and there will be class rooms for business courses, as well as for the more fundamental branches—these changes being primarily formed for the girl who feels herself unable to enter a business college.

On the third floor there will be accommodation for two resident secretaries and for transient or emergency cases. Here also will be found a room for the joint use of the organization known as the Camp Fire Girls of America, which there are already seven groups, and for junior work. On this floor also there will be rooms for the teaching of all kinds of domestic art—sewing, millinery, etc.

Altogether the building, which has been given by the people of Richmond, is for the social, physical, intellectual and spiritual life of every girl in Richmond, and as such it will fulfill a need and splendidly supplement the home life of Richmond's young women.

TO REGAIN A Healthy, Girlish Complexion

(From The Feminine World.)

If you would have a clear, fresh, girlish complexion, the ounce of ordinary mercurized wax will aid you in this direction more than shelves full of cosmetics. It produces a natural beauty.

This wax is procurable at any drug store, completely absorbs a bad complexion, revealing the healthy young skin underneath. It is so gradually applied, day by day, that no inconvenience is caused. The wax is applied at night, like cream, and removed in the morning with soap and water.

Another valuable rejuvenating treatment is the use of the "Bath of Sulfate." This is a solution of powdered sulfate, 1 oz., dissolved in 1-2 pt. with hazel, and is applied at night, smoothing out the lines and "firming up" the loose tissue.—Advertisement.

New Method Gas Ranges

Have More Exclusive Patented Gas Saving and Convenience Features Than Any Gas Ranges Made

New Method Oven Construction

Study the illustration. See how the flame travels along the bottom plate. It does not touch the oven bottom. The heat travels up the sides and down whatever you are baking. (Follow the Arrows.) The same flame used in baking is used in the broiling. The flame travels directly across whatever you are broiling, and yet there is not the slightest possibility of burning.

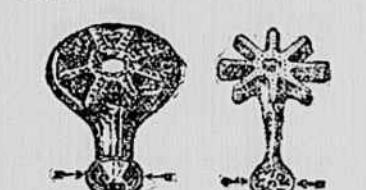

Movable Simmering Burner and Lighter

With this device you can light one burner from the other without matches. There are no pilot lights to be blown out by gusts of wind, or gas registering on your meter 24 hours in a day. Then, too, you can move a burner underneath the vessel, instead of moving the vessel above the burner. This feature is found only in a New Method range.

Compare the New Method with any other gas range at any price and you will be convinced of this more forcibly than we can convey in a printed statement.

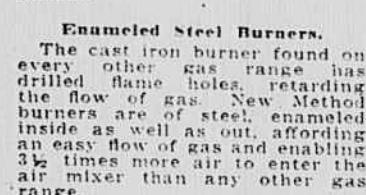

There are certain distinctive features about all gas ranges, but try and think of a single one that combines the great number of exclusive features that you will find in the New Method.

In economy of gas consumption the New Method stands alone.

The New Method Consumes 20 to 30% Less Gas

than any gas range made. This is not a mere advertising statement, but a fact that is easily proven by the accompanying illustration and description of burner.

Enamelled Steel Burners.

The cast iron burner found on every other gas range has a drilled hole through the burner, through the flow of gas. New Method burners are of steel, enamelled inside as well as out, affording an easy flow of gas and enabling 3 1/2 times more air to enter the flame, rather than any other gas range.

Split Oven Doors Enable You to See By Only Partially Opening Doors.

When you swing open the old style oven the hot steam rushes into your face. With the split oven doors you are protected by the division in the centre.

Far Superior to the Impractical Glass Door

Steam and moisture soon obscure the glass oven doors, making it impossible to look inside. Then, too, the possibility of breaking is great. With a split oven door you can see inside by just partially opening the door. See above picture.

New Method Stoves Arc All Steel Throughout

No blackening or polishing is necessary. A damp cloth makes the enameled surface will make it shine with jet black brilliancy.

One Dollar Down and Fifty Cents a Week Will Place the New Method in Your Home Immediately

ASHEVILLE

[Special to The Times-Dispatch.]
Asheville, N. C., June 28.—These are the last days of the summer season at the Battery Park Hotel, but the "Land of the Sky" is leading all other Southern resorts for its number of visitors, its many added attractions, and the different events scheduled to take place during the next few weeks.

Of interest to the largest Southern cities will be the open golf tournament, entries to include members from clubs throughout the South.

The open tournament of the Asheville Country Club when the formal opening of the Grove Park Inn takes place will include a number of the country's best golfers, and many invitations have been extended to guests to attend the tournament, which will continue through July, August and September.

No one need go to the "Rockies" to get the effect of being far above the clouds," declared a visitor to this region: "Just wait and take a trip with me up Mount Mitchell, the highest peak this side of the Rockies." Governor Locke Craig, of North Carolina, is to inaugurate the opening of passenger travel over this new mountain railway in about two weeks, and with his special train will deliver an address on what will be known as "Black Mountain Road."

It was a great surprise when Charlotte Hobart, the one-time tennis champion, was joined by her husband, W. A. Knight by a 4 up and 2 to play in the thirty-six-hole final match of the Asheville Golf and Country Club, and he finally ended the match on the 15 green by a twenty-foot putt.

Mrs. Locke Craig, wife of Governor Craig, of North Carolina, entertained informally at the Battery Park Hotel Monday night with music by the Regiment Band and with a record-breaking attendance.

Dr. S. Schorn, of Dallas, Tex., but formerly of Richmond, returned to the Battery Park Hotel from a ten days' fishing trip in this region and joined his mother, Mrs. George Schorn, and his wife, Mrs. S. Schorn, at the Battery Park Hotel, where they are spending the last week in June in a carnival of gaieties.

Sunday evening a large number of the guests made auto trips to mountain top, and reported a most delightful time. This continues to be one of the favored diversions, and the road roads and picturesque mountain scenery made the trip.

Monday evening the ball room was a riot of color and beauty, for the first large dance of the season was given. A large number of young people from Asheville and the nearby towns were present, and little Misses Fontaine Wilson and Alva Houston, the little song and dance birds that have charmed Atlanta and New Orleans, gave a captivating performance.

A measuring party was held in the ball room Wednesday evening, and was enjoyed by more than 100. Mrs. Z. C. Gold and Miss Olive Runciman measured the guests at a table.

Mrs. E. O. Robinson, of Orlando, Fla., has returned to the Battery Park Hotel after a visit to the Battery Park Hotel.

Among those last arriving are Jos T. Moore, Bervill R. H. Cardwell and Miss Cardwell, Hanover; Mrs. A. B. Carter, Miss Gertrude Carter and Alfred Carter, Richmond; W. B. Porchett, Charleston, S. C.; Louis F. Jordan and

CHRISTIANSBURG

[Special to The Times-Dispatch.]
Christiansburg, Va., June 28.—The home of Mrs. Robert T. Elliott was a power of the city on Tuesday evening at 8 o'clock, when the marriage of Miss Elliott to Joseph Haven Hoge, of Bluefield, W. Va., was celebrated.

The bride was Miss Elliott, daughter of Mr. and Mrs. R. T. Elliott, of Bluefield, W. Va. The groom was Joseph Haven Hoge, of Bluefield, W. Va.

The ceremony was performed by Rev. J. O. Meade, rector of Christ Church, Bluefield, W. Va.

The bride and groom were accompanied by their parents, Mr. and Mrs. R. T. Elliott, and Mr. and Mrs. J. O. Meade.

The wedding party consisted of the bride, groom, best man, maid of honor, bridesmaids, flower girls, ring bearer, and ushers.

The reception was held at the home of the bride's parents, Mr. and Mrs. R. T. Elliott, in Bluefield, W. Va.

The wedding was a most successful one, and all enjoyed it very much.

The bride and groom will leave for their honeymoon trip to the West Indies.

The wedding party will be in the city for a few days before leaving.
